

How do I use the new *Pharmaceutical Journal* app?

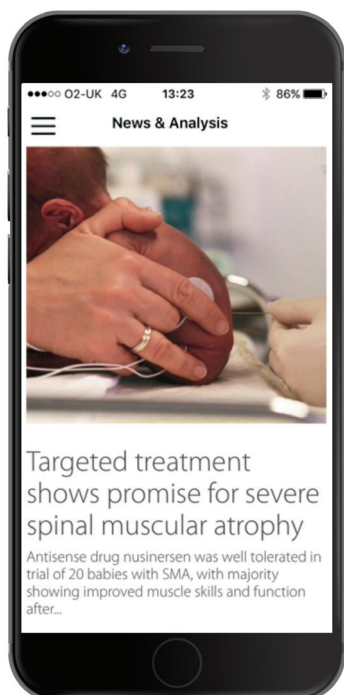

- 1** When the app opens you will see a screen showing the top stories. To move up and down the page, scroll up and down.

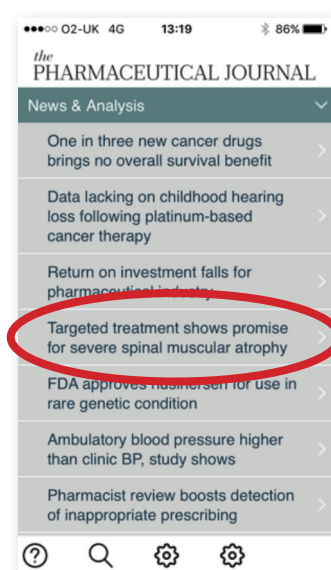

- 2** If you would like to access a specific section (such as News & Analysis) tap on the menu in the top left of the screen. This will open up a list of sections.

- 3** If you wish to read all the stories in one section tap on the section and you will be taken to the landing page for those stories. Tap on the top story and the article will open up.

- 4** If you want to find or start with a specific story, tap on the arrow to open up the list of articles in each section. Scroll down to find the story you wish to read and tap on it.

- 5** To read other stories in this section, swipe left to move to the next article. Swipe right to go back to the previous article. When you reach the end of the stories in the section you won't be able to swipe left anymore. To move to the next section, use the menu option at the top left of the screen.

How to use the search functionality

1 The search option is visible when the menu is open. Tap on the menu in the top left corner to open up the list of sections. Please note that the mobile device needs to be online when the search functionality is used.

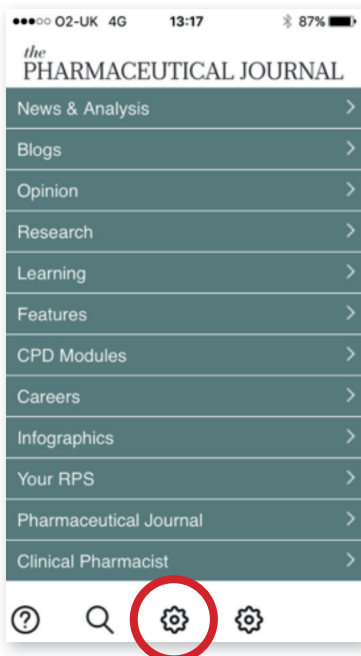

2 A search box will be shown. Enter the term you would like to search for and tap on search. The app will retrieve any articles containing that search term. Tap on the story you wish to view.

3 When the article selected has opened, swipe right to return to the search results. To close the search results tap on Close.

Settings

1 The settings can be accessed by tapping on the cog at the bottom of the screen when the menu is shown.

2 The settings screen allows you to change the font size by selecting the size required, check the content in the App is up-to-date & enables you to clear the cache should you require this. When you have finished with the Settings page, tap on Close to exit.
